## Tennessee State News

### About the Smallpox Situation.

Dr. J. A. Albright, secretary of the State Board of Health, last week issued the following statement relative to the smallpox situation in West Tennessee:

"During the past ten days much uneasiness has been occasioned at points along the Nashville, Chattanooga & St. Louis road in West Tennessee, and also in counties adjoining Henry, owing to the unusually fatal type of smallpox now prevailing at Paris. This uneasiness has led several towns and communities to declare quarantine against any and all persons coming from Paris and vicinity. Such quarantine is absolutely useless and will not accomplish the desired protection against the introduction and spread of smallpox infection—it only serves to disturb the public mind and ultimately must prove injurious to the commercial and other interests concerned. Past experience in dealing with smallpox in Tennessee has but served to emphasize the fact that the only intelligent and sure protection against smallpox infection is that afforded by successful vaccination.

"I visited Paris and found the county board of health of Henry county enforcing all necessary precautionary measures, especially vaccination, all suspects were under surveillance and every case under quarantine. The first case of smallpox was reported from Paris on January 15, and up to February 8 a total of seventeen cases had occurred, nine white and eight colored. From these cases there has resulted a total of seven deaths—four white and three colored.

"At the present writing smallpox exists in the following counties adjacent to Henry and in West Tennessee: Crockett county, one case in vicinity of Johnson's Grove; Dyer county, one negro family in vicinity of Dyersburg; Houston county, one case at Danville and Erin, respectively; Lauderdale county, several cases in rural districts; Montgomery county, District No. 1, five cases; District No. 2, two cases; Wayne county, two cases at Allen's Creek; Weakley county, one case in southern part of county; Madison county, several cases in vicinity of Jackson; Shelby county, all cases promptly removed to pest house.

"At all points of infection the respective county boards of health have the situation well in hand, and are enforcing the State law regulations. At no other point in the State does this peculiarly fatal type of smallpox prevail outside of the cases reported at Paris.

### Cotton Yields to Fruit.

Last year's cotton crop in Gibson county was 23,000 bales, yielding \$1,000,000. This year the bales will be fewer and the dollars more. Such are the indications, though no concerted action has as yet been taken. The truck acreage will be much increased, attention being given to the growth of fruits and vegetables. John Sapping, south of Trenton, has added 15,000 vines to his grape vineyard; Mr. Conner has planted 15,000 cherry trees, and S. J. Taylor has recently planted an additional 2,000 apple trees in his orchard. Other farmers are planting trees of different varieties on a smaller scale, and a large acreage is being put in tomatoes and berries, evidencing the fact that the territory around Trenton will ere long be the leading fruit section of Gibson county.

### Appointed a Naval Cadet.

It is reported that Herbert McMinn, of Trenton, has been named by Congressman Finis E. Garrett to receive the scholarship at the United States Naval Academy at Annapolis. Young McMinn is said to be of scholarly attainments, and will complete the Peabody High School course at Trenton in May. He is the second young man of sterling character and worth who has been signally honored from Trenton this year, the other being Dreyer Dance, who was appointed to West Point by Senator Carmack.

### Breaking Business Records.

It is claimed that Camden has done more business within the past year than in any previous year in the history of the town.

### Slaughtering Quail.

Reports reaching the State game warden from Davidson and surrounding counties last week showed that quails were being slaughtered at a great rate. The birds huddled together on the snow, and often a dozen were killed at a single shot. Hundreds were also trapped, and the claim invariably made by the trappers was that the trapping was done by their sons under 16 years of age.

### The Legislature's Work.

Although nearly half of the legislative session had passed when the recess began, only fifty-two bills had been passed and received by the governor. The only general laws enacted are:

To prohibit the sale of tobacco in any form to boys under 17 years of age.

Authorizing the loan of money on tobacco and cotton.

Giving grand juries inquisitorial power in cases of public drunkenness.

Authorizing the superintendent of public instruction to declare a school holiday in order to hold a meeting of the teachers of the county.

Prohibiting murderers from inheriting property of the person killed.

Ceding a strip of ground adjoining the Marine Hospital at Memphis to the United States government.

Making it a felony for insolvent banks to receive deposits.

Providing registration to protect trade marks.

Regulating replevin cases in magistrates' courts.

Extending the time for enforcing a vendors' lien.

Regulating practice in Chancery Courts in certain particulars.

### Dr. Matthews in Trouble.

The Rev. M. A. Matthews, formerly pastor of the First Presbyterian Church, Jackson, now pastor of the First Presbyterian Church at Seattle, Wash., has had his reputation assailed by the president of the city council of that city. Dr. Matthews had denounced the loose methods of the city administration from his pulpit. The city official alleged that Dr. Matthews was an ex-gambler, etc. This is not true and the Jackson church will send a letter defending Dr. Matthews.

### His Reason Dethroned.

B. B. Atkins, the old man who shot his son twice at Dresden a few days ago with a double-barreled shot gun, has lost his mind. He is in jail, suffering from an attack of nervous prostration, and his reasoning power is completely dethroned. Intimate friends and neighbors, whom he has known for years, cannot rouse him to the point of recognizing them. His wife and sister-in-law, who were arrested as accessories before the fact, have been released from jail.

### Benton Doctors Overworked.

The prevalence of la grippe and pneumonia in Benton county has grown to be alarming, and the physicians of the county are hardly able to respond to the calls made for their services. During the past week about a dozen deaths were reported from one or the other of these dread diseases.

### Jackson Auditor's Report.

The city auditor of Jackson reports the receipts of that city for the past year as \$62,161.65. The city's floating indebtedness increased last year \$5,347.33. The total floating indebtedness is about \$250,000. The total real estate assessment of the city is about \$2,500,000.

### Honor for Tennesseans.

Luke E. Wright, of Tennessee, is the first American citizen to bear the title of governor-general of the Philippines. The Philippine bill, signed by the president last week, authorizing the change of the title he now holds, namely, civil governor of the Philippines, to that of governor-general.

### Usurping (?) Their Authority.

Every justice of the peace in Benton county is up in arms against the proposed redistricting of the county by the legislature. They claim that it will be usurping their authority and that they are competent to act in the matter, if action is needed.

### P. A. & W. Chartered.

Secretary of State Morton today chartered the Pensacola, Alabama & Western railroad, of Tennessee, capital \$100,000.

### Many Schools Suspended.

Many of the town and country schools of the State were suspended last week on account of the terrible weather which prevailed.

### Wildcats and Wolves.

Wildcats and wolves are becoming so numerous along the Tennessee river in Benton county that the farmers are securing dogs everywhere to assist in extinguishing them. A wolf was captured last week on the farm of Leander Williams, and of late several persons have been attacked by wildcats. A bear was recently seen in that section, and a number of reliable people have reported seeing deer.

## THE SOUTHWEST IS STORMSWEEP

PEOPLE AND LIVE STOCK FROZEN STIFF BY BLIZZARD.

Entire Southwest Swept by a Northerly, Whose Blast Has Caused Untold Suffering.

Louisville, Ky., Feb. 13.—A blizzard swept over the entire Southwest yesterday, causing a fall in temperature to zero and in numerous places some degrees below that point. It came with a rush and a whirl that caught people unprepared, and the consequence is that incalculable damage to property and untold suffering to persons and live stock has been caused. Reports from Texas, Oklahoma and Indian Territory state that the cattle-men estimate their losses at a round million dollars. A number of people were frozen to death during the night, and many more are in a critical condition from exposure to the chilling and unkindly blasts.

The Indians in the territory are the worst sufferers. They are without proper clothing for such surly weather, and as it has been a generation or longer since they have experienced its biting fangs, their constitutions are not sturdy and vigorous enough to withstand the shock. Rave fears are entertained for those living on the plains, and it is thought that before the storm shall have passed many hundreds of them will have gone to the happy hunting ground.

It is reckoned throughout the affected section that this is the worst cold weather that has visited those States in a score of years. The norther was followed by snow, and in some instances sleet, and the precipitation is quite heavy. Rivers are already beginning to rise, and they will soon be out of their banks. Railroad traffic is impeded, and bridges are threatened, which may shut it off altogether for a week or more.

### BLOODHOUNDS ON TRAIL

Of Murderous Burglars Who Killed a Prominent Citizen.

New Albany, Miss., Feb. 12.—The foul murder of W. N. McCallister, a prominent citizen and the leading jeweler of this place, by unknown parties about midnight last night, has thrown New Albany into a turmoil of excitement. The finding of the lifeless body at an early hour this morning aroused the citizens. Armed men are walking the streets tonight with determination written upon their countenances, and if the perpetrator of the outrage is apprehended it is believed that summary justice will be meted out to him. Sheriff J. E. Tate and a posse on horseback are following bloodhounds trailing the murderer through the bottom beyond the Tallahatchie river, and the entire community is anxiously awaiting news from the search. The surrounding country has been apprised of the tragedy, and officers in the adjoining counties are on the lookout for the murderer.

### STREWN WITH CARCASSES.

New Mexico Prairies Filled With Dead Sheep and Cattle.

Denver, Colo., Feb. 12.—Reports of intense cold, accompanied in sections by snowfall, were received at the office of the local weather bureau tonight from Colorado, Wyoming and New Mexico. Southern Colorado and Northern New Mexico the worst storm since 1886 is raging, according to dispatches from Trinidad. In New Mexico the storm reached the proportions of a blizzard and great damage to stock is reported. The prairies strewn with the carcasses of dead sheep and cattle.

### SMOKING TABOOED.

Midshipmen Dismissed From the Service for Using the Weed.

Annapolis, Md., Feb. 12.—Since the dismissal of Midshipman E. C. Weller, of New York, from the third class at the Naval Academy, the old question of smoking, which caused his downfall, has been revived, and a strenuous crusade started against this breach of the academy regulations. A special order was read at formation today and posted on the order boards, which states that any further use of tobacco by others than members of the first class will be met with immediate dismissal from the institution.

### Passenger Wrecked.

Parsons, Kan., Feb. 12.—Missouri, Kansas and Texas fast passenger train No. 21, from Kansas City to Oklahoma City, was wrecked at Moran Water Tank early today. The train was running as a double-header on account of heavy snow and the water from the tank had formed a heavy coat of ice upon the rails which derailed the first engine, causing the second engine, two baggage cars and mail car to pile up.

### Judge Tanner Confesses.

Portland, Ore., Feb. 12.—Judge A. H. Tanner, United States Senator Mitchell's law partner, confessed in Judge Billings' court yesterday afternoon to perjury in his evidence given before the Federal grand jury in connection with the run of the land frauds in his State when testimony was being taken with a view to connecting United States Senator Mitchell with the conspiracy to defraud the government.

### RUN WITHOUT WIRES.

The Southern Railway Operated Its Trains by Pickets.

Birmingham, Ala., Feb. 12.—For six days during the past week when the Southern railway was without wires between the Georgia State line and Atlanta because of the destruction wrought by the great sleet storm a unique method was resorted to to get trains through on time and without accident. Officers of the road were stationed at various prominent stations in the affected districts, and all trains were started out from both ends on schedule time.

## THE CONDITION OF TRADE

While Some Disturbances Has Been Caused by the Elements, Trade Is Generally Satisfactory.

New York, Feb. 11.—R. G. Dun & Co.'s weekly review of trade says:—Some disturbance has been caused by the elements, but business conditions are otherwise unusually satisfactory for the season. Distribution of merchandise is of liberal proportions, and the new year is fulfilling sanguine expectations. Low temperature and storms interrupted traffic to some extent, but accelerated business in heavy manufacturing, overhauls and fuel. Manufacturing is still the best feature, especially in the various departments of the iron and steel industry. Some conservatism is noted in the placing of advance orders, but this is a favorable symptom, indicating the absence of reckless operations that produce inflated prices and ultimately cause excessive accumulation of stocks, followed by the inevitable period of re-tracement.

### A DOMICILIARY VISIT

The Residence of M. Witte, Russia's Great Financier, Searched by St. Petersburg Police.

London, Feb. 11.—The correspondent at St. Petersburg of the Daily Mail sends to that paper the report that the first act of the new minister of the interior, M. Boulguin, on arriving in St. Petersburg on Friday, was to have the residence of M. Witte, president of the council of the empire, searched by the police, who removed a mass of documents for examination. M. Witte was at home at the time, and the police made a systematic and thorough examination of all the private papers in the house. The correspondent adds that when M. Von Plehve was assassinated he was carrying an order to the emperor for his signature, authorizing just such a perquisition for M. Witte's papers. It looks, therefore, the correspondent says, as though the new interior administration is beginning just where Von Plehve left off.

## BUY NO MORE KANSAS OIL

The Standard Oil Co. Retaliating for Unfavorable Legislation in the Sunflower State.

Chanute, Kas., Feb. 11.—The Prairie Oil & Gas Co. (the Kansas name for Standard Oil Co.) has posted a notice that it would purchase no more Kansas oil. The Kansas City refinery is to get its supply from the territory field and the Needosha refinery is to shut down. Until it does shut down the territory field will supply the Needosha refinery also.

All the gaugers have been laid off. All the plants at Chanute will shut down indefinitely. Hundreds of men will be thrown out of work, but the operators say that they will put still more energy into the fight for state legislation as a result of the shut down.

## RAILROAD WRECK IN MEXICO

Three Persons Killed and Several Injured in a Wreck on the National Railway of Mexico.

Laredo, Tex., Feb. 11.—In a wreck on the National Railway of Mexico between Carlos and La Ventura, three persons were killed, and perhaps others were killed or injured. As a south-bound train was making its way through the mountains beyond Saultillo it crashed into a northbound freight train which had taken a siding. The second coach, which was used for second and third class passengers, was telescoped.

A passenger on an incoming train said that one woman, a child and a coal passer are known to be dead, and many others are supposed to be in the second class coach, which was surrounded by debris. Traffic is delayed on both the central and northern divisions.

### IN BEHALF OF GREASON

Lawyers Endeavoring to Have the Case Reopened in View of Mrs. Edwards' Confession.

Philadelphia, Feb. 11.—Attorneys representing Samuel Greason, the negro, who, with Mrs. Kate Edwards, is condemned to be hanged at Reading next Thursday for the murder of Mrs. Edwards' husband, came from Reading to lay before the supreme court a petition asking that Greason's case be reopened and sent back to the Berks county court for retrial.

The petition is based on a confession made by Mrs. Edwards on Thursday. Accompanying the petition is an affidavit made by the woman in which she swears that Greason "is entirely innocent of said crime; that he had no knowledge of the perpetrator thereof, and did not in any way, manner or form participate therein, nor did he by any word, act, or deed aid or abet therein."

### For "Benefit of the Church."

Jacksonville, Ill., Feb. 11.—Baker brothers, of Atlanta, Ill., were giving a stereoscopic entertainment at the Baptist church, for the benefit of the church, when an explosion occurred, injuring one of the Bakers, causing a panic, and damage by fire, to the church to the amount of \$500.

### Took Strichine and Died.

Houston, Tex., Feb. 11.—A. W. Moore, brother-in-law of Congressman A. S. Burleson, is dead of strichine poisoning. The drug was taken with suicidal intent.

## MANY CHILDREN IN PERIL

Destruction of the Loretta Seminary at Webster Groves, Mo.

Fifty Girl Students and Ten Sisters, By Observing the Fire Drill, Escape Injury.

St. Louis, Feb. 10.—Loretta seminary at Webster Groves, a suburb of St. Louis, was completely destroyed by fire which broke out in the institution shortly before one o'clock Thursday afternoon.

There were 50 students, all girls, and ten sisters in the building when the flames were discovered, but the coolness of the sisters in charge of the institution and the perfection of the fire drill enabled all of them to get out in safety.

The fire started in one of the rooms on the third floor and is supposed to have been caused from coals falling from a stove.

There was some excitement when the fire was first discovered, but no panic. The inadequacy of fire-fighting appliances, coupled with the fact that a brisk wind was blowing, made it impossible to save the building, which, being of frame, offered good fuel for the flames, which spread rapidly over the third floor and then burned downward.

Part of the more valuable furnishings in the lower part of the building were carried out, but the greater part of the contents were destroyed.

The seminary building was known as the Webster place. It was built by D. F. Webster as a residence, and was afterwards converted to the needs of a seminary.

The sisters and pupils will be sheltered temporarily at the residence of Rev. Father Kane, across the street from the destroyed seminary.

## VOICED ONLY OWN OPINION

The Good-By to August W. Machen By a Former Letter Carrier Officially Repudiated.

Washington, Feb. 10.—E. J. Cantwell, secretary of the National Association of Letter Carriers, has issued a card repudiating, in the name of that organization, the action of a former letter carrier, who, in bidding good-by to former General Superintendent Machen of the free delivery system, on the latter's departure for Mountville penitentiary, assured Machen of the sympathy of a large number of letter carriers of the country. Mr. Cantwell says that that statement was merely an expression of individual opinion; that the man who made it is no longer a carrier, but a clerk in another branch of the postal service; that the members of the association never have taken any concerted action to express an opinion as to the guilt or innocence of Mr. Machen, and that the man mentioned was not authorized to speak for the letter carriers in any way.

## THE ALLEGED LAND FRAUDS

Washington, Montana and Wyoming to Receive Attention After Oregon is Cleared Up.

Washington, Feb. 10.—As soon as the public land fraud cases are cleared up in Oregon, where several more indictments of considerable importance are expected to be returned very shortly, it is expected that the government will devote considerable attention to cases growing out of alleged land frauds of considerable extent in Washington, Montana and Wyoming. There are many matters that have developed in these states that bear some similarity to the transactions on which the efforts of the government have been largely concentrated for a long period in Oregon, and the present expectation is that these will be looked into with the same vigorous policy as has marked the proceedings of recent months.

## ATLANTA, GA., IS ISOLATED.

The Center of the Great Sleet Storm, All Wire Communication Is Completely Cut Off.

Atlanta, Ga., Feb. 10.—(By special messenger to Montgomery, Ala.)—Atlanta is cut off from the rest of the world by wire communication as completely as if no wires had been strung. In Atlanta at the present writing, noon, Thursday, the city is isolated, both telephone companies being without a wire to points beyond the limits of their operating rooms. The Western Union report 3,000 telephone poles down within the Atlanta office jurisdiction. The postal company reports similar damage, and its officials here confirm the report that Atlanta seems to have been the center of the storm troubles.

Besides the damage to wires in the city the loss to shade trees has been enormous. The ice-laden branches have been broken in every part of the city, delaying and shutting off completely all street car traffic, lighting and telephone communication.

## To Postpone Action.

Washington, Feb. 10.—The house committee on merchant marine and fisheries voted to postpone action at this session on the omnibus fish hatchery bill. This measure provided for the establishment of about twenty fish hatcheries at a cost of \$500,000.

## Against Closed Shop.

Milwaukee, Feb. 10.—The International Association of Master House Painters and Decorators adopted resolutions declaring against the closed shop and for a plan of grading workmen.

## ALL RECORDS BROKEN

WEATHER CONDITIONS OVER THE COUNTRY WORST IN HISTORY.

Loss of Life and Property Very Heavy. Over Fifty Thousand Head of Stock Have Perished.

Chicago, Feb. 13.—Not during the last six years has the equal of the present cold weather been experienced in the West, and in many places no such low temperatures have been recorded since the establishment of the weather bureau.

The area of the cold wave extends from Canada to the Gulf of Mexico, and from the Rocky Mountains to the Atlantic. The line of zero weather is about in the latitude of Memphis, but all through the South freezing weather is reported. In the North the mercury has registered anywhere from zero to 45 degrees below, the latter mark being recorded at Richmond, Va.

Trains everywhere in the West and Northwest are from two to twelve hours late, and because of the packing of the fine snow in the cuts, it is expected that it will be several days before the roads are able to restore the schedule time, even if the weather moderates. Although details are lacking, it is estimated that about a score of people have lost their lives, the majority of the fatalities being in the Southwest, where distances between houses and towns are great and shelter hard to find.

The loss of cattle on the ranges, particularly on those lying in the northern part of the southern tier of States will be very heavy. W. E. Bolton, secretary of the Oklahoma Live Stock Association, places the number of head lost on the range in Western Kansas, Western Oklahoma and the Pan Handle of Texas at 50,000 head. Further north in Nebraska and the Dakotas and Montana the stockmen are better prepared to shelter their stock, their cattle are better insured to cold, and it is not expected that their losses will be anything near as heavy as those on the ranges further to the South.

The loss of cattle on the ranges, particularly on those lying in the northern part of the southern tier of States will be very heavy. W. E. Bolton, secretary of the Oklahoma Live Stock Association, places the number of head lost on the range in Western Kansas, Western Oklahoma and the Pan Handle of Texas at 50,000 head. Further north in Nebraska and the Dakotas and Montana the stockmen are better prepared to shelter their stock, their cattle are better insured to cold, and it is not expected that their losses will be anything near as heavy as those on the ranges further to the South.

## MARRIED FOR BUSINESS.

Hoch Says His Chief Stock Was Flattery—After Getting Their Money He Left Wives.

Chicago, Feb. 13.—Johann Hoch made a statement today that his matrimonial ventures were not love affairs.

"I want to correct one impression of me given the public," he said. "All are led to believe that I am a regular Romeo. I am not. I did not love any of my wives. I have no use for women. It was purely a business proposition with me. When I found they had money, then I went after them. When I got it I left them. They had no charms for me. I advertised for women over 45. I found they were easier to seduce from their money. Flattery was my chief in stock. You can win a woman quicker that way than any other."

## WANTS INFORMATION.

Asks on What Charge His Client Will Be Tried.

Cleveland, O., Feb. 13.—J. P. Dawley, chief counsel for Mrs. Chadwick, appeared before Judge Taylor in the United States District Court today and asked that the district attorney state upon what charge his client would first be tried. In reply District Attorney Sullivan said as the grand jury was still in session and hearing testimony relative to the Chadwick and other criminal cases, he could not tell definitely upon which indictment the woman would be tried until the latter part of this week, when he expected the grand jury would complete its work. Mr. Sullivan added, however, that Mrs. Chadwick would probably be placed on trial first on the charge of conspiracy.

## WILL DESERT ADDICKS.

Delaware Senator of Gas Fame Will Lose Votes.

Philadelphia, Feb. 13.—A special to the Evening Telegraph, from Dover, Del., says:—

"The senatorial situation took a change late today when it was announced on good authority that eight of the United Republican Assemblymen will leave J. Edward Addicks during the week and cast their vote for T. Coleman Dupont, of Wilmington, the millionaire president of the Dupont Powder Company, for senator."

This agreement was reached this morning. This will be the outcome of the recent rumors on the subject of a break, and it will mark the first desertion from the Addicks ranks since the session of 1895.

## Bombardment Continues.

Tokio, Feb. 13.—The Russians continued to bombard portions of Field Marshal Oyama's center and right on Saturday last, February 11. The Russians continue the construction of defensible works on their right, to the southwest of Yentapan, where they are erecting emplacements for a battery of twenty-four guns.

The Japanese recently surrounded a Russian cavalry detachment near Heienchang. Killing three of the enemy and wounding eleven.

## FOR SHOVING QUEER.

Preacher Arrested While Preaching for Passing Raised Bills.

Huntington, W. Va., Feb. 13.—Rev. Washington Hager, of Hadley, an Episcopalian minister, has been arrested for passing two dollar bills that had been raised to tens. He was engaged in conducting a revival meeting at the Big Creek when the arrest was made. The bills were passed on ex-Sheriff J. M. Porter and Hamlin Crockett both of Hadley. Mr. Hager has been preaching and his arrest caused a great sensation.
